1. Attached are folders on

- China-VN-USSR
- PLO
- Rhodesia
- Angola
- Cuban Involvement in Africa

25X1A

With the exception of the "Cubans in Africa" topic the talking points are coordinated with State. I have included copies of the State cables received thus far which include the "PLO," "Cubans in Africa," and "PRC-VN-USSR." I will get NFAC views on these cables tomorrow.

if you should decide to brief these also.

4. All of the photos will be in a separate briefcase (the one I showed you) also ordered according to topic. It would probably be worthwhile for you to familiarize yourself with them once you get there. You will probably have too many.

25X1

Using the notebooks will enable you to recover all the material before you leave. If you like I could have small note-taking notebooks attached so that it will be obvious to them not to take notes on the graphics.

I hope to have everything wrapped up by noon.
